Sub : Buyback option in supply of goods through GeM Portal.

Sir,

During an investigation on supply of SMF Batteries, it was discovered that although there was no option of Buyback of old batteries in the NIT, one of the bidders made his offer with buyback option. The bidder was declared L1 and supply order was also placed, which had to be cancelled later on due to discrepancy in the offer.

In order to ensure better price for goods to be purchased and efficient disposal of old items/ scrap, it is felt that option of Buyback may be examined for implementation where it is feasible. This apart from economizing procurement may also help in disposal of otherwise hazardous scrap materials. In this respect, following system improvement measure (SIM) is suggested for implementation:

**While preparing bids for purchase of items/equipment against surveyed-off item, analysis should be done to arrive at conclusion on whether to go for procurement with buyback or through separate auction of scraped items.**

The outcome of suggestion may kindly be advised to the Vigilance Department.
