Team from Ministry of Coal, CIL and CMPDI Visited Harrission County Coal Mine, USA.

Shri Vinod Kumar Tiwari, Additional Secretary (Coal), Ministry of Coal, Govt of India; Shri Manoj Kumar, CMD, CMPDI; Shri Anandji Prasad, Advisor (Projects), MoC; Shri Achyut Ghatak, General Manager (Corporate Planning), CIL; Shri Chiranjib Patra, General Manager (CED/UMD), CMPDI visited Harrission County Coal Mine in Western Virginia, USA. and witness the Pre-Mining Methane Extraction Process and facilities for safe Underground Mining.

Shri Shankar Nagachari assumes charge as Director (Technical/ES) at CMPDI

Shri Shankar Nagachari assumes charge as Director (Technical/Engineering Services) at CMPDIL. Prior to this he serves in various capacities at SECL.

Shri Nagachari obtained his Mining Engineering Degree in 1988 from The Institution of Engineers (India) and M.B.A degree in Marketing Management from IGNOU. Shri Nagachari started his career from Ambara Colliery, Kanhan Area of Western Coalfields Limited. Shri Nagachari worked in Coal Production activities in various capacities from Mine Manager to Area General Manager in Underground and Open cast mines of Western Coalfields Limited and South Eastern Coalfields Limited. Under his Leadership Baikunthpur Area and Sohagpur Area of SECL received National Safety Awards.

The vast experience and knowledge of Shri Nagachari is expected to benefit not only CMPDI but the Coal Industry as a whole.

Inauguration of Geo-Technical Lab and Large Direct Shear Machine.

Shri Manoj Kumar, CMD, CMPDI inaugurated the newly constructed Geo-Technical Lab and Large Direct Shear Machine (LDSM) at CMPDI (HQ), Ranchi. Geo-Technology Lab was setup under CIL R&D Project.

LDSM is the largest machine of this type in country and one among the largest in the world with a Normal and Shear Load Capacity of 2500kN each and can test Particle size upto 80 cm. LDSM was developed and designed by CMPDI in association with IIT Delhi and manufactured in India. This LDSM is used for the estimation of Strength Properties of representative Over-Burden (OB) dump and Rock Material under true field stress conditions. These properties are used for assessment of stability of Pit & Dump slopes in opencast coal and metal mines. This machinery will help in stability assessment of pit and dump slopes for ensuring safety in mines, thereby helping in optimization of land requirement.

Shri R.N. Jha, Director (T/RD&T); Shri S.K. Gomasta, Director (T/CRD); Shri Shankar Nagachari, Director (T/ES); Shri A.K.Rana, Sr. Advisor (Mining); All Regional Directors of Regional Institutes of CMPDI, GM/ HoDs and employees were present on this occasion.

A meeting of Rajya Sabha 'Committee on Subordinate Legislation on 'Statutory obligations and achievements of targets on CSR.
