This will be applicable for shortfall in

delivery performance from 90% upto 60%. Thus, there will be maximum 30% penalty on the non-supply value towards non-achievement of delivery performance.

Calculation of monetary penalty in terms of clauses 11.7 and 11.8 above, is illustrated below;

Situation	Half Yearly Qty for which allocation/requisition raised	Actual Qty supplied	% of Actual Supply	% deduction for below 90% del Perf. (limited to 30%) (90 %-D)	Non-Supply Qty. (B-C)	Non-Supply Value (Rs)	Value of Penalty (Rs.) (E x G /100)
(A)	(B)	(C)	(D)	(E)	(F)	(G)	(H)
Situation-I	100 MT	82.86 MT	82.86	7.14	17.14 MT	5,14,200.00	36,713.88
Situation-II	100 MT	60 MT	60	30	40 MT	12,00,000.00	3,60,000.00
Situation-III	100 MT	50 MT	50	30	50 MT	15,00,000.00	4,50,000.00
Situation-IV	100 MT	0 MT	0	30	100 MT	30,00,000.00	9,00,000.00

- Value in column 'G' has been worked out taking unit rate of Rs. 30,000.00 per MT i.e., value in column 'F' multiplied by Rs.30,000.00.

Besides, the subsidiary company shall take action as per Clause – 14 of this RC.

- 11.9 For signing of the delivery performance report (quarterly under Clause 11.6 and half - yearly under Clause-11.7), the RC holder will be intimated by letter/fax/e-mail/SMS to sign within 3 (three) days from the date of intimation by the Subsidiary Company. If the RC holder / authorized representative fails to sign the said delivery performance report within the stipulated time, it will be deemed that the RC holder has accepted the same and no further communication from the RC holder will be entertained by the Subsidiary Company /CIL in this regard.

Bench mark powder factor for 2nd financial year and for remaining period of proposed RC during financial year 2023-24, if any shall be circulated by subsidiary companies directly to the suppliers with the approval of CMD of subsidiary company.

20.3 The mine wise achieved powder factors shall be declared by the subsidiaries every month. The method of calculating the achieved powder factor shall be by same method by which benchmark powder factors are calculated.

20.4 Explosives supplied by you shall achieve the mine-wise benchmark powder factors indicated in the RC during the period of the contract. Failure to achieve the benchmark powder factors shall attract penalty as detailed in 'Performance and Penalty' clause mentioned below.

20.5 In case of new opencast mines i.e. new projects/ patches, including outsourcing and hired HEMM patches, new seam of existing opencast mine or change in method of work, change in geo-mining conditions, which may come up during the tenure of the contract and for which benchmark powder factor is not communicated with the RCs, the subsidiary shall formulate the powder factor as follows: -

- a) Bench Mark PF shall be fixed through a committee consisting of representatives from Subsidiary Company and CMPDI.
- b) For second year, the average PF achieved in previous financial year shall be fixed as Bench Mark PF.

14

All Bench Mark Powder Factors determined above should have approval of CMD of the subsidiary company.

Only one PF shall be applicable during any Financial year period of contract for any OC mine [separate for Coal & OB (departmental/ Outsourcing patches)] irrespective of types of explosives.

- 20.6 Mine wise benchmark PFs may be reviewed by the CMD of the subsidiary companies in consultation with CMPDIL on financial year basis, for the tenure of the contract (1st FY, 2nd FY, remaining period of the RC during FY 2023-24), if the deduction/bonus at such mines exceeds 20 % of the price of explosives. The revised PF, if any, shall apply during the tenure of the contract. For example in case contract starts in October, 2021 and if benchmark PF for 1st Financial year is required to be reviewed for the period from October, 2021 to March, 2022 (1st FY), then the reviewed PF will be the BMPF for 1st Financial year and will be applicable from October, 2021 to March 2022 in this case.

The supplier has to lodge claim within four months of completion of the relevant year in case the deduction exceeds 20% of the price of explosives. The claim of the supplier shall be settled by subsidiary company by the succeeding three months of the claim. Claim made by suppliers after the above period, shall not be entertained.

If bonus exceeds 20% of the price of explosives, the subsidiary companies shall initiate review immediately after completion of the relevant year.

- 20.7 For new powder factors as well as review of existing powder factor cases explained above, CMD of the subsidiary company is empowered to issue the necessary amendment to the RCs to incorporate the new/revised powder factors without referring the matter to CIL.
- 20.8 Cast booster shall be allowed to the extent of 0.2% maximum for Shovel & Dragline Benches for holes more than 10m length and upto 0.3% for holes below 10m length beyond which cost of the same will be borne by the suppliers.
- 20.9 Any cartridge booster to be used with bulk explosives shall be indicated by you in terms of quantity. Minimum use of such cartridge booster will be preferred and the equivalent of cast booster is to be adjusted.
- 20.10 Any increase in the usage of cast Booster and cartridge Booster over and above the stipulated percentage will be at the suppliers' cost.

21. Performance and Penalty

- 21.1 The mine-wise achievement of powder factor should not be less than the benchmark powder factors. The method of calculating the achieved powder factor shall be the same method by which benchmark powder factors are calculated. In the event of supplied item not providing satisfactory results, penalty will be imposed by way of Deduction from price of these items. For every percentage decrease in powder factor of Coal/OB compared to the benchmark powder factors as provided in the RC, same percentage deduction of the price (without GST) of explosives shall be made.

- 21.2 In case the achieved powder factor is above 105% of the benchmark powder factor, then Bonus may be paid quarterly @ 0.3% (zero point three percent) of the price of explosives (without GST) for every percentage increase in powder factor over 100% of the benchmark. Thus, for achievement of powder factor between 100% to 105% of the benchmark, there will be no bonus. For example when achieved PF is 106%, bonus to be paid will be equal to $0.3\% \times 6 \times \text{Price of the explosives}$.
- 21.3 In the event of failure of blast, the cost of explosives/accessories used in the blast and drilling cost will be recovered from the respective defaulting supplier(s). In case of blast failure, initially proportionate deduction (proportionate to value) will be made for both explosives and accessories. After investigating into the cause of failure as to which item (explosive or accessories) is responsible for the failure, final deduction will be made accordingly.
- 21.4 The bench mark Powder Factors mentioned in the RC shall also apply in case of explosives supplied to contractors in outsourcing patches (wherever separate Powder Factors for outsourcing patches are not indicated), if the explosives purchased by CIL is used in such patches with the condition that only the net cost of explosives and accessories (after deduction on account of powder factor) is recovered from the outsourcing contractor.
- 21.5 The payment shall continue to be made as per RC terms and provisional deduction if any, on account of non-achievement of PF shall be made only on quarterly basis. However, the final assessment of Powder factor and reconciliation thereof shall be made on financial yearly basis including extension/short closure, on average powder factor basis. Bonus shall be paid in the same way as that of penalty.
- 21.6 Deduction due to non-achievement of powder factor shall be made from the price of explosives only and not from accessories prices.

22. Technical services

- 22.1 Whenever a manufacturer supplies any explosives item for the first time to a subsidiary, CMPDIL test and trial report of that item shall be presented to the GM(Prodn/ In-charge of Explosives) of the subsidiary co. before the explosives are used in any colliery and the manufacturer's representative shall be available for advice.
- 22.2 At least one technical representative (who is minimum a Diploma in Mining) shall be posted in each subsidiary. However, in case of SECL and MCL, in view of geographical distances two separate representatives (each) for Korba and CIC of SECL and Talcher and IB valley of MCL shall be posted.
- 22.3 The technical representative of a supplier shall report to user within 48 hours of call (letter/fax/mail/ SMS) including calls regarding clause 22.4 and 22.5 below, and failure to reach the caller within 48 hours shall attract a penalty of Rs 50,000/- per call/service. Calls shall also be endorsed to GM in charge of the explosives at subsidiary headquarter level who will finally decide on imposition of penalty. Failure to provide technical service as per clauses 22.6 & 22.7 mentioned below will also attract a penalty of Rs 50,000/-.

- 22.4 The manufacturer shall give technical expertise in designing the pattern of blast holes to improve the blasting efficiency depending upon the requisition by the subsidiary.
- 22.5 Whenever there is a special problem like vibration and noise near any structure or dwelling and deflagration of explosives, technical representative of the manufacturer along with necessary equipment shall immediately attend to them and solve the problem jointly with the mine representative.
- 22.6 Half yearly workshop/training shall be conducted by the suppliers to explain the technical details of their item as well as to make the people understand and implement the uses of the explosives & its accessories for safe and efficient operation and for improvement of blasting efficiency.
- 22.7 Quarterly technical service report shall be submitted by the supplier to the concerned subsidiary companies.
