09.08.2023	CMPDIL	CMPDIL, Kanke Road, Ranchi 834031 Help line no-0651-2233058/0651-2233455 <a href="http://www.coaleauktion.co.in">www.coaleauktion.co.in</a> E-mail- <a href="mailto:coaleauktion.pmu@coalindia.in">coaleauktion.pmu@coalindia.in</a>	22.08.2023

The e-Auction for the month of **August 2023** shall be conducted as per the "Terms & conditions of CIL e-Auction scheme 2022 (Single window mode agonistic e-auction)" which is attached below, with all modified modalities circulated by Coal India Limited. Successful bidders in this auction shall also ensure the followings.

1. The consumers already registered with service providers MSTC and/or M Junction can submit/upload their existing Identity Card issued by MSTC and/or M Junction for registration with CMPDIL. For the benefit of new consumers, the screen shot of the process to be followed is being **enclosed** for convenience.
2. For Registration consumers may also contact the following:

Contact Person Name at CMPDIL	Phone No.	E-Mail ID
Malay Kumar Majee	8987789092	<a href="mailto:coaleauktion.cmpdil@coalindia.in">coaleauktion.cmpdil@coalindia.in</a>
AamirAnas	8987789091	<a href="mailto:coaleauktion.pmu@coalindia.in">coaleauktion.pmu@coalindia.in</a>

3. As per guidelines issued by MoC regarding policy for handling and disposal of washery rejects, BCCL had conducted Spot e-Auction vide Notice Ref No.: BCCL/M&S/PS/F-Spot e-Auction/22-23/358 Dated 17.08.2022; competent authority has approved to offer the un-booked / un-sold quantity of washery rejects (offered earlier) to all customers as per clause 4.1 read with clause 4.2 of the guidelines

issued by MoC regarding policy for handling and disposal of washery rejects dated 27.05.2021 (copy enclosed).

4. Successful bidders of Bhojudih Washery rejects in this e-Auction shall gainfully use rejects as per the guidelines issued by MoC regarding policy for handling and disposal of washery rejects dated 27.05.2021. Successful bidders would be required to submit valid environmental clearances/permits for gainful use of rejects as source of energy with valid environmental clearances/permits for its uses and/or other supporting documents like supply orders etc. for gainful use of rejects as per clause 4.1 read with clause 4.2 of the guidelines issued by MoC regarding policy for handling and disposal of washery rejects to Washery Division, BCCL for issuance of SO & commencement of dispatch.
5. The loading of Bhojudih Rejects rakes under this e-Auction shall be subject to approval of Coal Controller Organization (CCO). As such the consumers are required to satisfy themselves & comply with the provisions, as above, in case of rejects from Bhojudih Washery.
6. Successful bidders buying coal/coal products for own consumption are required to mail their scanned copy of form 27C to [eauction.bccl@coalindia.in](mailto:eauction.bccl@coalindia.in) on the next working day of Spot e-Auction along with Sale intimation letter received from service provider for availing TCS exemption.
7. Successful bidders should ensure that they have a valid dealer Registration No. in JIMMS Portal i.e. FORM B and they should submit the same in BCCL for issuance of Sale order.
8. Successful bidders of rakes shall submit the Rake movement program (Annexure-C) of FOIS in BCCL for movement of rakes.
9. The transportation from WPC stock to siding & loading into the wagons will have to be arranged by successful bidder through own arrangement and the tax invoice shall be prepared based on electronic print of Rail weighbridge for sale of Washed Power Coal (WPC) from Bhojudih washery. Any penalty at Bhojudih washery charged by Railways viz. under loading etc. Will have to be borne by successful bidders.
10. Loading of rakes with WPC at Bhojudih washery has to be completed within free loading time provided by Railway. Co-User charges would be applicable as follows

Sl. No	Total Loading time of Rakes	Applicable Co-user Charge (Exclusion of GST) in Rs./Tones
1	Free Loading time as per Railway Norms	30.0
2	Free Loading time Plus 2 Hrs	60.0
3	Free Loading Time plus 4 Hrs	90.0
4	Further any increase of 2 Hr Slab	90.0 + Additional Rs 60.0 for each 2 Hrs Slab
Note: BCCL reserves the rights to make amendments in Co-user charges without assigning any reason whatsoever. GST or Taxes shall be applicable as per Govt. Norms.		

The details of this CIL e-Auction are being notified and displayed at company's website and also in the websites of Service Providers. Interested buyers may visit the following websites of BCCL and service provider for details of the scheme, terms & conditions.

**NOTE: BCCL RESERVES THE RIGHT TO AMEND/MODIFY OR CANCEL/WITHDRAW THIS NOTICE, THE TERMS & CONDITIONS OR THE SOURCE /PRODUCTS /FLOOR PRICE/STATUTORY DUTIES ETC. WITHOUT ASSIGNING ANY REASON WHATSOEVER.**

## 1. Introduction

The Coal Auction System is being created by National Informatics Centre for Coal India Limited. The portal is a secure, transparent platform for conducting Electronic Auctions.

The objective of this document is to provide basic guidelines to the bidder of eAI web application.

This document helps in detail, the steps to be followed to

- To generate Login Credentials for the bidder.
- Manage My Accounts & Profile by the bidder.
- Navigate through various menus under User Management for bidder.
- Navigate through various menus under Bid Management for bidder.

### Roles and the functions of the bidder

The roles of the bidder and their functions are as follows:

- **Auctioneer/ Bidder** - Can create a bidder account, reset password, change profile image, enrol DSC, upload auction type wise documents and submit an auction bid.

## Menus Available

The menus available for the Auctioneer/ Bidder are

- My Accounts & Profile
- User Management
- Bid Management

## System Pre-Requisites

- **Processors:** 3.3 gigahertz (GHz) or faster 64-bit dual core processor with SSE2 instruction set
- **Memory:** 8 GB RAM or more
- **Operating Systems:** Windows 10 and above
- **Browser:** Chrome, Firefox Quantum Version 60.x & above, Microsoft Edge
- **Java:** Java 8 and 9
- **DSC:** Digital Signature Certificate (Class 3)
- **Internet connection with adequate speed**

## 2. Process Flow

### 2.1 Bidder Registration

Click on Bidder Registration in the homepage of the eAI Coal India portal to generate the bidder login credentials.

### BIDDER REGISTRATION

**i Dear User,**

Welcome to Bidder Registration process!

The system will ask you to provide some basic details about you and your company. Additional details are to be provided upon successful registration process.

Please keep the following details ready with you for faster completion of the Registration Process.

- ✓ PAN
- ✓ GSTIN
- ✓ Passport Size Photograph

Registration Process:

1. The system will ask for your mobile number and email address to be registered with the portal.
2. You will receive OTP in the mobile number and email address given by you.
3. Enter both the OTPs sent on your mobile number and email address.
4. In the next step, enter the basic details, company details, bidder details & login credentials.
5. In the final step, review all the details and click on proceed to complete the bidder registration.
6. After final review, system will ask you to select a payment option.
  - i. Registered Bidder with MSTC and/or mjunction:
    - » The bidders who are already registered with MSTC and/or mjunction should select 'upload supportive document' option and upload their existing Identity Card issued by MSTC and/or mjunction.
    - » The uploaded Identity Card will be verified and approved by CMPDIL. After approval, the bidders will be required to register their DSC on the portal.
  - ii. New Bidder (Not registered with MSTC or mjunction):
    - » New bidders should opt for 'Proceed to Online Payment' link. You will be directed to SBI Bank Gateway for Payment either through Net banking from SBI or Other Banks, Debit/ Credit Card, UPI.
    - » After successful payment, the bidder will be directed to register their DSC on the portal.

**START**

(c) 2017 Auctions NIC. All rights reserved. Version: 1.0.01, Updated on: 11-Mar-2022  
Site best viewed in the latest versions of Firefox and Chrome browsers with a screen resolution 1366 x 768. PORTAL POLICIES

Enter your Mobile Number and Email Address for Verification. Click on the Submit button.

The screenshot shows the 'eAI - CIL Coal eAuction' website. The header includes the logo, contact information (0120-4001004, support-ceauction[at]nic[at]in), and the date (19-Jun-2023 03:41:02 PM). The navigation bar has links for HOME, BIDDER REGISTRATION, and LOGIN. The main content area features a progress bar with steps: Verification Process, Basic Details, Company Details, Bidder Details, Login Credentials, and Final Review. The 'Verification Process' step is active. A green box contains a note: 'Note: Mobile Number and Email of the bidder has to be registered here. All communications will be done through this Mobile Number and Email'. The 'OTP Verification' section prompts the user to enter their Mobile Number and Email Address. The Mobile Number field is filled with '+91 3333333333' and the Email Address field is filled with 'bidderone@gmail.com'. A 'Submit' button is visible at the bottom right.

Enter the OTP's sent to your Mobile and Email Address within the time limit. Click on the Verify button.

The screenshot shows the 'eAI - CIL Coal eAuction' website. The header and navigation bar are the same as the previous screenshot. The 'Verification Process' step is active. A green box contains a message: 'OTP has been sent to your contacts, 3333333333 and bidderone@gmail.com. Please enter those OTP in the respective fields to continue.' The 'Verify OTP' section prompts the user to enter their Mobile OTP and Email OTP. Both fields are empty. A message below the fields states 'Your OTP will expire in 14:39 minutes'. At the bottom right, there are 'Back' and 'Verify' buttons.

Select the Bidder Type Individual / Company and enter the Basic Details. Click on the Next button to go to the next screen.

## 2.2 Bidder Login

Click on the Login button found on the top right most corner in the homepage.

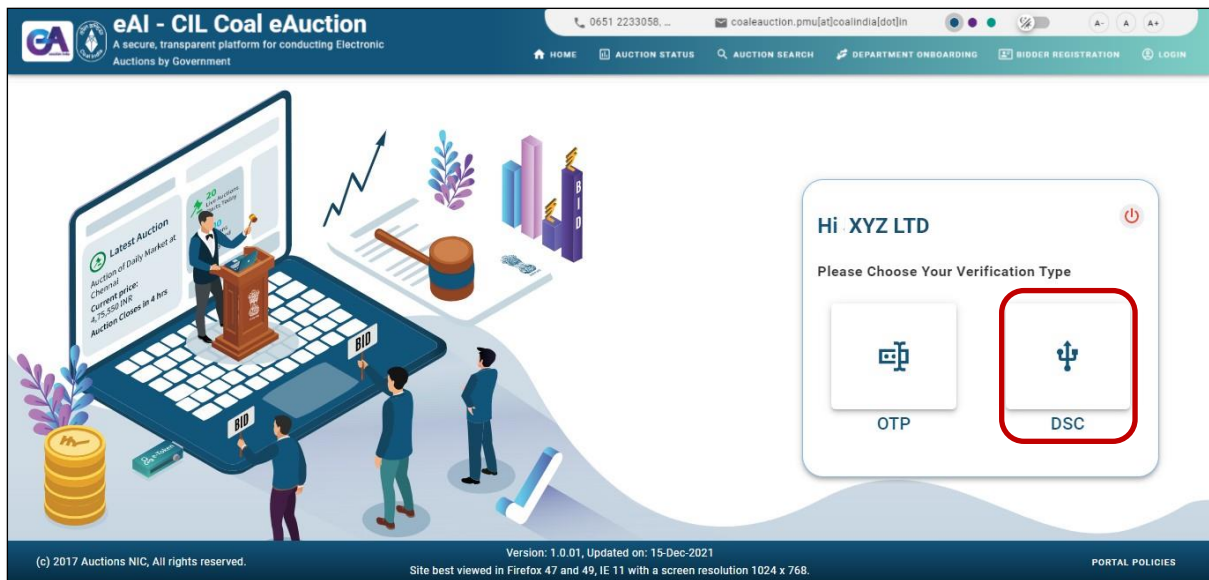

The eAuction portal displays the Login page. Enter the Login ID, Password, captcha and click on the Login button.

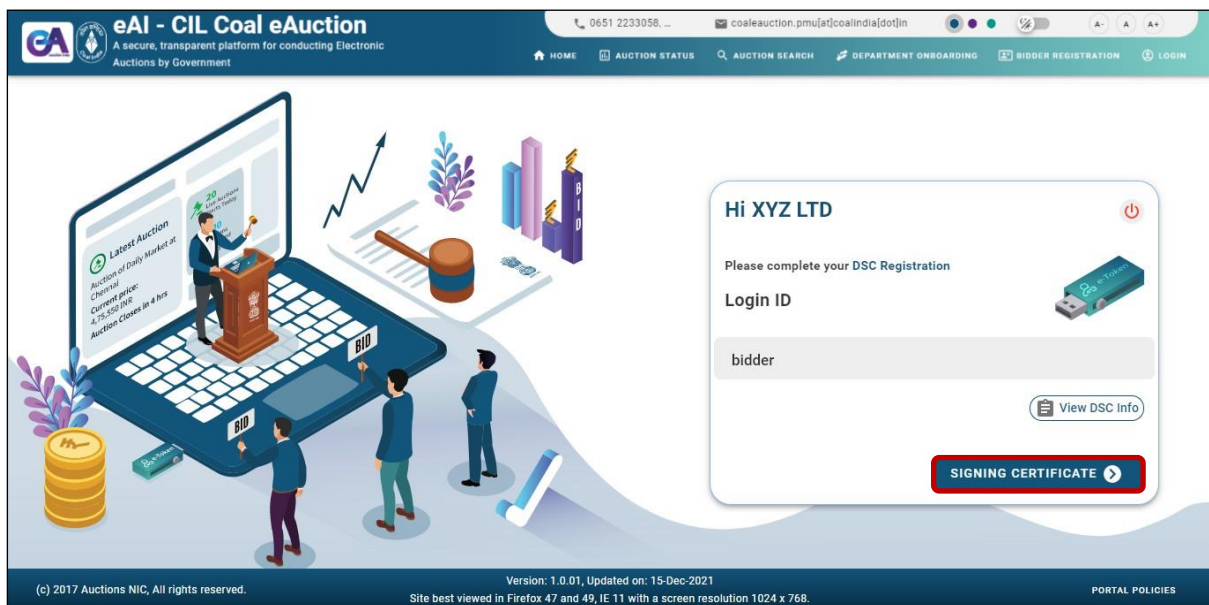

The system directs the bidder to the bidder verification page. Choose DSC/ OTP for second level bidder authentication.

### a) DSC based Verification

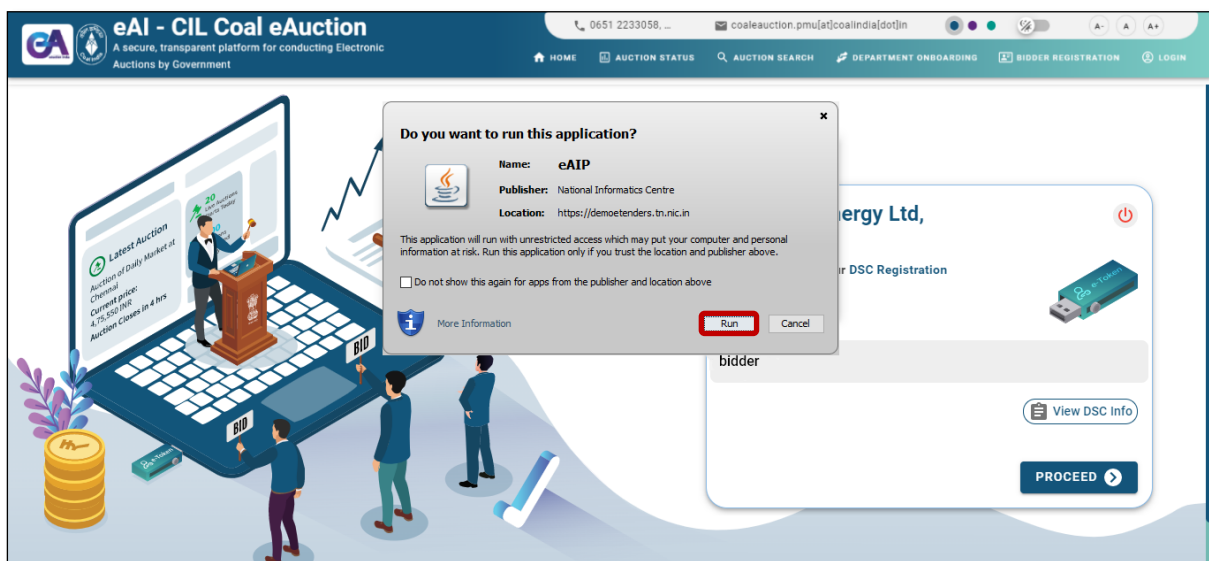

Complete your DSC Registration by clicking on the Signing Certificate button.

A JNLP file is downloaded as a standalone application to your machine. Sometime it may show some security warning. To run the downloaded JNLP file, click on “Keep” option and then double click to open.

Click on run button to run the application.

The system will list all the available DSC in your machine. Choose appropriate DSC certificate to register in the portal and click on the Proceed button.

The screenshot displays the eAI - CIL Coal eAuction portal. The main header includes the portal name, a tagline, and navigation links. A modal window titled "EAIP DSC Enrollment" is open, showing a table of available DSC certificates. The table has columns for Certificate, Issued By, Type, and Expiry Date. The certificate "democert116Sign" is highlighted with a red box. Below the table are buttons for "Refresh certificates" and "Enroll certificate". To the right of the modal, the bidder registration form is visible, showing the user name "Hi XYZ LTD", a login ID field, and a "PROCEED" button.

DSC verification success message is received. Click on Ok button.

On successful bidder authentication, click on the Login button to login to the bidder dashboard.

In the case of first time bidder login, the system directs the bidder to upload the mandatory auction type wise registration documents. Once the registration documents are uploaded, on successful login the bidder is directed to the Bidder Dashboard.

## b) OTP based Verification

Enter the Login ID, Password, captcha and click on the Login button.

Click on OTP for second level bidder verification.

The screenshot shows the eAI - CIL Coal eAuction portal. The header includes the eAI logo, the text "eAI - CIL Coal eAuction", and a tagline "A secure, transparent platform for conducting Electronic Auctions by Government". The navigation bar contains links for HOME, AUCTION STATUS, AUCTION SEARCH, DEPARTMENT ONBOARDING, BIDDER REGISTRATION, and LOGIN. The main content area features a large illustration of a laptop displaying auction details, with people interacting with it. To the right, a user profile for "Hi XYZ LTD" is shown. Below the profile, a prompt "Please Choose Your Verification Type" is displayed. Two buttons are available: "OTP" (highlighted with a red border) and "DSC". The footer contains copyright information, version details (1.0.01, Updated on: 15-Dec-2021), and portal policies.

Enter Verification Code sent to your registered Mobile Number / Email and then click on the Verify button.

The screenshot shows the eAI - CIL Coal eAuction portal with the OTP Authentication screen. The header and navigation bar are identical to the previous screenshot. The main content area features the same illustration. To the right, the "OTP Authentication" section is active. It displays the user's login ID as "bidder". A message states: "Verification code has been sent to your Correspondence Email/ Registered Mobile Number." Below this, there is a field to "Enter Verification Code" with six input boxes numbered 1 to 6. A "BACK" button and a "VERIFY" button (highlighted with a red border) are present. A note at the bottom of the section says: "You will be able to resend OTP in 4 Min 49 Sec." The footer contains the same copyright and version information.

In the case of first time bidder login, the system directs the bidder to upload the mandatory auction type wise registration documents. Once the registration documents are uploaded, on successful login the bidder is directed to the Bidder Dashboard.

The screenshot displays the 'eAI - CIL Coal eAuction' web application. The user is logged in as 'bidder' on 28-Mar-2022 at 11:27 AM. The left sidebar shows the user 'XYZ LTD' with the role 'Tenderer' and navigation options: 'My Accounts & Profile', 'User Management', 'Auction Type Document Upload' (selected), and 'Request Bidder ID Card'. The main content area is titled 'AUCTION TYPE WISE REGISTRATION DOCUMENT UPLOAD' and features an 'UPLOAD' button. Below this is a form with a dropdown menu for 'Auction Type' currently set to 'Select'. A red note below the dropdown states: 'Note: Please select Auction Type to upload the documents.' The footer contains version information (1.0.01, updated 11-Mar-2022), copyright notice (© 2017 Auctions NIC), and a link to 'PORTAL POLICIES'.

## 2.3 Auction Type Wise Registration Document Upload

In this module, the system directs the bidder to upload the auction type wise registration documents. The bidder can upload documents against auction types Spot Auction, Special Spot Auction, Special Forward Auction, Exclusive Auction, and Special Spot Auction Import Substitution.

### a) Spot Auction

In the case of first time bidder login, the system directs the bidder to upload the auction type wise registration documents.

The screenshot displays the eAI - CIL Coal eAuction system interface. The top header shows the server time as 28-Mar-2022 11:32:28 AM and the user is logged in as 'bidder'. The sidebar on the left lists navigation options: 'My Accounts & Profile', 'User Management', and 'Auction Type Document Upload' (which is highlighted with a red box). The main content area is titled 'AUCTION TYPE WISE REGISTRATION DOCUMENT UPLOAD' and features a dropdown menu for 'Auction Type' with 'Select' as the current option. A note below the dropdown states: 'Note: Please select Auction Type to upload the documents.' An 'UPLOAD' button is located in the top right corner of the main content area. The footer contains the text: '(c) 2017 Auctions NIC, All rights reserved.', 'Version: 1.0.01, Updated on: 11-Mar-2022', 'Site best viewed in the latest versions of Firefox and Chrome browsers with a screen resolution 1366 x 768.', and 'PORTAL POLICIES'.

Bidder has to select the Auction Type. In this case, the auction type is selected as "Spot Auction". The system displays the pending documents to the bidder. Click on the Upload button to upload the auction type wise registration documents.

## 2.4 Bidder ID Card

Coal India e-Auction website provides the bidder with a Bidder ID Card with a validity period. The bidder has to request for the bidder ID card in the Coal auction website. Once the request has been placed by the bidder, the organisation administrator of the website will verify the bidder ID card details and approve/revise the request of the bidder. Upon successful approval of the bidder ID card, the organisation administrator will print the bidder ID card and send it to the bidder.

### a) Bidder ID Card Request

Bidder logs into the portal with login credentials. Click on Request Bidder ID Card sub menu under User Management left menu. The system displays the Bidder ID Card Details. Verify the bidder ID card details. Click on the Upload Photo to upload the photo of the bidder. Click on the Upload Signature to upload the digital signature of the bidder.

\*\*\*\*\*END OF DOCUMENT\*\*\*\*\*

F. No. CCT-13011/3/2007-CA-I(Vol-III)  
Government of India  
Ministry of Coal

Room No. 622-A, Shastri Bhawan, New Delhi,  
Dated: 27<sup>th</sup> May, 2021

To,  
The Coal Controller,  
Coal Controller's Organisation,  
Council House Street,  
Kolkata-700001

**Subject: Policy for Handling & Disposal of Washery Rejects**

Sir,

The proposal of Handling & Disposal of Coal washery Rejects has been under examination in this Ministry and with the approval of Competent authority, the policy for Handling & Disposal of Washery Rejects has been framed. The present Policy will regulate the handling and disposal of Coal Washery Rejects in a uniform manner and will be applicable on all coal Washeries.

**Policy for Handling & Disposal of Washery Rejects**

**1. Objective**

- a. To define coal washery rejects
- b. To facilitate conservation of energy through environment friendly extraction of residue energy from coal washery rejects
- c. To regulate the use of coal rejects with an aim to minimize the pollution footprint
- d. To decide the ownership of rejects in different modes of washery operations
- e. To ensure stacking of rejects, dumping of rejects in mine voids/low lying areas in environment friendly manner
- f. To provide for a mechanism for monitoring and control

**2. Some of the key terms – defined**

- 2.1 **Coal Washery Rejects (CWR)** are the by-product of Coal Washeries with Gross Calorific Value (GCV) less than 2200 kcal/kg.
- 2.2 **High Calorific Value (HCV) coal Washery Rejects** are rejects with GCV equal to or in excess of 1500 kcal/kg.

*Sujeet Kumar*

- 2.3 **Low Calorific Value (LCV) coal Washery Rejects** are rejects with GCV less than 1500 kcal/kg.
- 2.4 **Owner of CWR** shall be the party, which owns the raw coal supplied to the Washery. Hereinafter, the term **Owner** shall be used for the owner of CWR.
- 2.5 **Deemed Owner of CWR** Any rejects generated due to washing that cannot be utilised by the owner may be sold to washery operator and in such case the washery operator will be deemed owner of CWR.

### **3. Stacking of CWR**

- 3.1 Owner/deemed owner shall ensure that LCV and HCV Rejects are stacked separately at appropriate sites selected as per environmental guidelines issued in this regard.
- 3.2 Each stacking site shall be properly levelled, surveyed and a grid plan shall be prepared showing RLs at 15 m interval.
- 3.3 During stacking of CWR, all environmental and safety guidelines shall be followed. Due precautions shall be taken against spontaneous heating.
- 3.4 The Owner/deemed owner shall get the average GCV of each stock examined as per the guidelines issued by CCO in this regard.
- 3.5 Monthly records shall be maintained in respect of each stock of CWR showing the opening stock, amount of CWR received in and despatched from the stock during the month, closing stock, average GCV and other relevant details.
- 3.6 The owner/ deemed owner will ensure disposal of rejects as specified in EC conditions.

### **4. Disposal of CWR**

#### **4.1 Prioritizing conservation -Extraction of energy from the HCV rejects**

- 4.1.1 As Indian coal is inherently difficult to wash, the loss in calorific value in rejects is often too high and therefore may be gainfully used as source of energy in CPPs (Captive Power Plants) /TPPs (Thermal Power Plants) for generation of power and other permissible end usages etc.
- 4.1.2 Owners/ deemed owners shall take all possible initiatives to ensure extraction of energy from the generated HCV rejects through its use as source of energy in various environmentally permissible end usages.  
**This is in line with Rule-27 of Solid Waste Management Rules -**

*Sujeet Kumar*

**2016, which requires extraction of energy from solid wastes of high calorific value of 1500 kcal/kg or more.** The owners shall maintain a record of all such initiatives (failed/successful) showing all relevant details in a specified format.

4.1.3 The Owner/ deemed owner shall ensure that the HCV reject is supplied to such end users who possess valid environmental clearances/permits for its use.

4.1.4 Whenever it is decided to dispose HCV rejects under this route, Owner/ deemed owner shall obtain prior permission from Coal Controller's Organisation (CCO) by applying for the same in a specified format. CCO may carry out necessary inspections and draw samples of CWR being despatched for ascertaining GCV and other particulars.

#### **4.2 Exploring alternate use of Washery Rejects – 2<sup>nd</sup> priority**

4.2.1 If the initiatives taken under Para-4.1 above do not fructify for the HCV rejects, the Owner/ deemed owner will explore **other permissible uses** of HCV rejects such as replacement of construction material (for highways, railways, dams, embankments, etc.), reclamation of land, brick making, or any other alternative gainful use. This exercise will also be carried out in respect of LCV rejects.

4.2.2 Actions for disposal of HCV rejects under this route shall be taken up only when due diligence was made by the Owner/ deemed owner for utilizing the rejects in terms of Para-4.1 above. All documentary evidences of such due diligence shall be kept maintained by the Owner/ deemed owner.

4.2.3 Whenever it is decided to dispose HCV/LCV rejects under this route, Owner/ deemed owner shall obtain prior permission from Coal Controller's Organisation (CCO) by applying for the same in a specified format. The owner/ deemed owner shall also give an undertaking that due diligence was made by him for disposal of HCV rejects as per Para-4.1. CCO may carry out necessary inspections and draw samples of CWR being despatched for ascertaining GCV and other particulars.

#### **4.3 Dumping of Washery Rejects in mine voids/low lying areas in environment friendly manner**

4.3.1 If all initiatives taken under Para-4.1 and Para-4.2 above do not fructify, the Owner/ deemed owner may resort to the last option of dumping of Washery rejects in mine voids or low lying areas in an environment friendly manner observing all precautions relating to safety and environment, as stipulated in statute and various guidelines. Going for this option will require proper and prior study of implications involved and with adoption of appropriate 'engineering

*Sujeet Kumar*

3/6

solutions' to avoid spontaneous heating, and possible contamination of water bodies.

4.3.2 Actions for disposal of rejects under this route shall be taken up only when due diligence was made by the Owner/ deemed owner for utilizing the rejects in terms of Para-4.1 and Para-4.2 above. All documentary evidences of such due diligence shall be kept maintained by the Owner/ deemed owner for inspection/verification of CCO as and when required.

4.3.3 Selection of Mine Voids/Low lying areas shall be the look-out of the Owner/ deemed owner, who shall enter into an appropriate arrangement with owner of the mine void/low lying area for dumping of rejects therein.

4.3.4 **All Coal mining companies shall identify and make a list of abandoned mine voids/running mines suitable for dumping of rejects and submit the same to CCO. The list of such mines shall be updated annually by the coal companies.**

4.3.5 Whenever it is decided to dispose rejects under this route, Owner/ deemed owner shall obtain prior permission from Coal Controller's Organisation (CCO) by applying for the same in a specified format. He shall enclose the agreement made with the owner of mine void/low lying area, a plan of the site showing the total area to be utilized for dumping, manner of transport and dumping, precautions proposed to be taken, structure of supervision, manner of final reclamation etc. The owner/ deemed owner shall also give an undertaking that due diligence was made by him for disposal of rejects as per Para-4.1 and Para-4.2. CCO may carry out necessary inspections and draw samples of CWR being despatched for ascertaining GCV and other particulars.

4.3.6 The owner/ deemed owner shall submit a Bank Guarantee (BG) @ Rs. 5.0 (five) lakh per hectare as guarantee towards final reclamation of the site to CCO. However, if the proposed mine has already an approved Mining Plan/ Mine Closure Plan, submission of BG may be dispensed with if an undertaking of the Mine is submitted in this regard.

4.3.7 It shall be responsibility of the Owner/ deemed owner to ensure that all precautions and safety measures are taken to ensure environment friendly disposal of rejects in a safe manner. CCO and other statutory agencies may carry out periodic inspections of the dumping site(s) to ensure compliance of such guidelines.

4.3.8 After completion of dumping and final reclamation by the Owner/ deemed owner, the reject dumping site shall be inspected by CCO to ascertain the efficacy of reclamation and precautionary measures put in place. If any deficiency is noticed, CCO may ask for remedial actions to be carried out by the Owner/ deemed owner failing which, CCO will

*Sujeet Kumar*

4/6

get the job done by any third party by encashing the BG submitted by the Owner/ deemed owner. The site shall not be declared closed for return of BG unless it is certified by the CCO that the site has been reclaimed adequately. CCO may obtain services of an accredited independent agency for carrying out such inspections at Owner's/ deemed owner's cost.

4.3.9 The Owner/ deemed owner will maintain a record of all such cases of reject dumping along with all relevant details in a specified format.

#### **4.4 Additional obligations for Linkage holders (regulated sector) obtaining coal at subsidized rates through FSA route and the owners of coal block allocated through allotment route**

4.4.1 The Linkage holders drawing coal under the Long-Term Linkage, as per National Coal Distribution Policy (NCDP)/Fuel Supply Agreements (FSAs) and the coal block owners (allotment route) are solely responsible for efficient use of coal for the specified purpose as per the FSA/allotment order.

4.4.2 **If coal is washed in a 3<sup>rd</sup> party Washery, such linkage holders/ block owners and in case any agreement is signed with washery operator as mentioned in para 2.5 the said washery operator (deemed owner) will be responsible for handling and disposal of rejects.**

4.4.3 Linkage holders/block owners have to declare the benefits derived from disposal of rejects/ agreement with washery operator and the methodology for passing on the benefits derived from such transaction to the public. The detailed information in this regard is to be furnished to the concerned Electricity Regulator or other authorities, if any.

#### **5. Maintenance of records and submission of returns**

5.1 The Owner/ deemed owner shall maintain all records that are specified in preceding paragraphs and all records required to be maintained under various applicable statutes/guidelines/orders in vogue.

#### **6. Monitoring and Control**

6.1 Subsequent to grant of permission for disposal of reject under any of the three routes, CCO may carry out inspection of concerned Washery, check the records maintained by the Owner/ deemed owner and draw samples from the reject stock/reject in transit for verifying the GCV. CCO shall carry out such inspections and maintain a record of the same along with other relevant details.

6.2 CCO shall carry out regular/surprise inspections of Washeries and also the sites of reject handling to check the efficacy of handling and

disposal of rejects. CCO may check the various records, as mentioned in preceding paragraphs, maintained by the Owner/ deemed owner and may also get the samples drawn and tested from reject stocks or stock of any other Washery product.

6.3 Cost of all sampling and testing carried out by the CCO under the provisions of this policy shall be borne by the Owner/ deemed owner.

7. Nothing in preceding paragraphs shall absolve the Owners/ deemed owners from fulfilling the various statutory requirements under other applicable statutes and obligations under various agreements executed with the Ministry/coal companies. Similarly the present policy shall not place any restrictions on various statutory bodies/State authorities/ coal companies in discharging their duties with regard to coal Washeries under respective statutes/agreements.

2. Since the competent authority has approved the **policy for Handling & Disposal of Washery Rejects** as mentioned in Pars 1 above, policy may be circulated to all concerned for further action. The action taken report shall be sent to this Ministry from time to time

Yours faithfully,

*Sujeet Kumar* 27/5/21

# **CIL e-Auction Scheme 2022**

Updated on 10.02.2023

**Background:** The policy for e-auctioning of coal through a single window mode agnostic offer has been introduced in terms of MoC guidelines circulated vide letter no. CPD-23011/18/2021-CPD dated 21.03.2022 on approval from Cabinet Committee of Economic Affairs (CCEA).

**Objective:** E-auction of coal will facilitate easy availability of coal through a simple, transparent and consumer friendly online system to all sections of coal Buyers across the country.

## **Terms & Conditions**

### **1. Eligibility:**

1.1 Any Indian Buyer (viz. individual, partnership firm, companies etc.) can participate in e-Auction for procurement of coal.

1.2 Before the bid is accepted, the bidder shall pay in full all sums of money due to the seller in regard to any previous supply of coal to the bidder. If there are any arrears, the seller shall be entitled not to consider such bids.

### **2. Registration:**

2.1 Before participation in the e-Auction, a prospective Buyer shall be required to get itself / himself registered with the Service Provider appointed by the CIL / Coal Companies for the purpose, by submitting an application in the prescribed format available on the Website of the Service Provider. The application shall be made along with the required documents such as PAN Number, GSTIN Certificate, Passport size photograph, etc. as prescribed by the Service Provider. This one time Registration can be done either online, or at the notified front office(s) of the Service Provider.

2.2 After the registration, all-prospective Buyers will be provided an auto generated "Unique User ID" & a "password" based on which they can log in. Details of the registration process with the Service Provider will be available in their website.

2.3 The Service Provider shall issue "Photo Identity Card" to their registered Bidders duly authenticating the identity & signature, indicating a "Unique Registration Number" allotted to them. The "Unique registration number" of the registered Bidders shall be communicated to the Coal Companies by the Service Provider.

2.4 Only one registration will be done against one PAN number. However, based on more than one valid GST registration certificate, more than one registration against a PAN Number can be considered. In such cases, the details of GST number will be indicated in each 'Photo Identity Card'.

**2.5 Bid Security:** All registered bidders shall be required to submit in advance Bid security in the form of a non-interest bearing deposit at the rate as decided from time to time with service provider for participation in e-auction

Bid Security may be paid upfront by way of e-transfer

or,

The Bidder shall have the option to furnish the Bid Security in the form of Bank Guarantee (BG).

(i) Such BG is required to be submitted separately for each subsidiary to the Service Provider, if the Bidder intends to participate in e-auction for more than one subsidiary.

(ii) The Service Provider shall arrange to send the scanned copy of the BG to the respective Coal Co. through e-mail to expedite taking SFMS confirmation of the BG by the Coal Co.,

(iii) The BG should be drawn on any SFMS enabled schedule Bank located at the HQ of the concerned coal company or such place as specified by the coal company and to be furnished as per the timeline notified by the coal company.

(iv) The validity of BG shall be six months from the date of e-auction initially. It will have to be kept valid throughout the pendency of lifting and to be further extended till discharged/returned by the Coal Company after final settlement of dues if any.

(v) SFMS Confirmation of the BG shall be taken by respective Coal Co. and shall intimate the Service Provider about the same. However, in spite of effort if the coal company fails to get required SFMS confirmation before the scheduled auction date, the bidder shall not be eligible to participate in the bidding and the reason for non-confirmation of BG shall be attributed to the bidders.

(vi) After completion of auction the original BG of the successful Bidders will be sent to concerned subsidiary along with the bid sheet by the Service Providers where supply of coal will start only after payment of the coal value.

(vii) In the event of failure of the Bidder to deposit the coal value for lifting of coal or any other reason as per the scheme the BG will be encashed by the concerned subsidiary.

(ix) BG against which no quantity could be successfully bided shall be returned to the bidder by the Service Provider.

(x) BG format shall be provided by the respective Coal Company.

**2.6. Process Fee:** In addition with the bid security, the Bidders shall also be required to submit a Process Fee, in cash through e-transfer, prior to participation in e-auction at the rate of Rs.20/- per ton for the intended bid quantity, inclusive of applicable taxes, with service provider for participation in e-auction. The Process fee shall be non-refundable to the extent of provisionally successful bid quantity in the First stage of bidding process.

2.7 As long as Bid security & Process Fee (both in the form of cash) is available in the registered buyer's account with the Service Provider, the bidder can participate in e-Auction conducted by any coal company of CIL through the Service Provider. In other words, it may be a global Bid security for participating in e-Auction conducted by the Service Provider. However, such option will not be available in case company wise BG is submitted by the Bidder in place of cash bid security.

2.8 The bid security and the Process Fee shall have to be deposited by the bidder by 23:59 hrs, of the day prior to the scheduled date of auction for participation. For example: If the auction is scheduled on 4th April, the bidder can deposit Bid Security & Process fees (both in cash) till 23:59 hrs. of 3<sup>rd</sup> April.

### 3. **Notification:**

3.1 Coal companies shall notify the event of e-auction, minimum 7(seven) days in advance, through display on the Company's notice board and putting the same on the Coal Company's websites for wide publicity. The program will be intimated to the Service Provider accordingly for hoisting the same on their websites also.

3.2 The auction shall be transport mode agnostic with default mode as Rail. However, coal may be lifted by the bidder through Road mode/other modes depending upon their choice and suitability without paying any additional charges and discount on account of basic price of coal,

The minimum bid quantity shall continue to be 50 tonnes. However, for movement by Rail mode, the bid quantity has to be in multiple of rake fit quantity.

3.3 The Buyer should satisfy itself / himself about the Rake fit stations / destinations from the Railways before participation in e-Auction for movement by rail.

Non-acceptance of the programme, even after the option exercised under extant Railway rules, on account of rake-fit stations / destinations being not accepted by the Railways shall be treated as a failure of the Buyer leading to forfeiture of related bid security.

### 4. **Auction Methodology:**

#### **4.1 Offer structure**

4.1.1 The auction will be held in two stages. First stage will identify the successful bidder through a mode agnostic e-auction process and second stage will settle the mode(s) & source(s) of supply on the basis of seniority of the bid of the first stage and choice of the bidder.

4.1.2 The offer will be provided by the coal company as a cluster of despatch points. The cluster may include one or more CIL Railway loading point(s) and one or more feeding collieries(Road loading points).

The mines, having no transportation arrangement to CIL Railway siding, may be offered as a single source cluster with mode of dispatch by Road. However, the bidder will be free to transport coal through Road-cum Rail mode on his own arrangement and responsibility.

4.1.3 The capacity of each loading point against the cluster offer are also to be indicated in the offer separately. The total capacity of the loading points shall be equal or more than the total offer quantity of the cluster.

4.1.4 Auction will be held in a mode agnostic system for the offer of the cluster on the representative grade and size.

The representative grade of the cluster shall be the lowest grade of the feeding Road despatch points and declared grade of the siding(s) if any.

If the size of the coal offered (Steam/ROM) is identical for all the loading points under the cluster, the same can be used as representative size of the cluster. In case, more than one size is offered within the cluster, ROM may be considered as the representative size.

#### **4.2. Bidding Process:**

4.2.1 The registered Bidders shall be required to record their acceptance after login, of the Terms & Conditions of the e-Auction before participation in the actual Bidding Process.

4.2.2 Before participating in e-Auction, Bidders are to satisfy themselves with the quality of coal being offered.

4.2.3 Prospective Bidders are entitled to Bid for the quantity to the extent of amount of Bid Security plus Process Fee (Bid security + Process fee), as applicable, which is available with the Service Provider in the Bidder's account at the time of Bidding.

#### **4.2.4 First stage of bidding:**

4.2.4.1 The Buyers while Bidding shall quote their "Bid price" per tonne in Indian Rupee as base price for coal/coal products on FOR/FOB colliery basis, exclusive of other charges like statutory levies, surface transportation charges, sizing/beneficiation charges, taxes, cess, royalty, SED, & any other charges as will be applicable at the time of delivery. These charges as well as freight etc. shall be on the Buyers' account.

4.2.4.2 The Bidder has to Bid for a price equal to or above the Floor price to secure consideration in the concerned e-Auction.

4.2.4.3 The date, time and period of e-Auction as notified in advance including closing time on portal of Service Provider shall be adhered to but for the event of force majeure. However, the closing time of e-Auction will be automatically extended up to last Bid time, plus 5 minutes, so that opportunity is given to other Bidders for making an improved Bid on that item.

4.2.4.3 The Bidder shall offer his Bid price (per tonne) in the increment of Rs.20/- (Rs. twenty) or multiple thereof during the Normal e-Auction period. During the extended period, the Bidder shall offer his Bid price in the increment of Rs.50/-(Rs. Fifty) or multiple thereof

4.2.4.4 While maintaining the secrecy of Bidder's identity, the web site shall register and display on screen the lowest and the highest successful Bid price at that point of time. The system will not allow a Bidder to Bid in excess of his entitled quantity as per the amount corresponding to bid security + process fee. Each bidder is entitled to register single bid for each cluster. However, the bidder may register improved bid at any point of time during the auction.

4.2.4.5 Following criteria would be adopted in deciding the successful Bidders:-

- (a) Precedence will be accorded to the highest Bid price in the descending order (H1, H2, H3 and so on) as long as the offered quantity is available for allocation.
- (b) If two or more Buyers Bid the same highest price, precedence for allotment will be accorded to the Buyer who has placed the Bid for the higher quantity.
- (c) In case two or more Buyers Bid the same price and the same quantity, precedence will be given to the Buyer who has accorded his Bid first with reference to time.

The Bid Seniority of the successful bidders shall also be decided following the above criteria.

4.2.4.6 On completion of the first stage of bidding, the provisionally successful bidder shall be intimated about winning bid quantity, bid price and bid seniority along with the date and time of Second stage of auction process, by the service provider.

#### 4.2.5 Second stage of bidding:

The provisionally successful bidder of first stage shall be provided with a window of 6 hours to register their choice of mode(s) & source(s). In case the cluster contains more than one Rail and/or Road loading points, the bidder shall also be required to register their order of preference of all the loading points for Rail and Road mode.

The provisionally successful bidders of first stage of bidding may register any one of the following choices:

SI.	Choice	1st option	2nd option	Order of preference of Rail loading points	Order of preference of Road loading points of cluster
A	No choice (bid < 4000 tonnes)	Road (by default)			The order of Road loading points of notification shall be the default of preference
	No Choice (bid ≥ 4000 tonnes)	Rail (by default)		The order of Rail loading points of notification shall be the default of preference	
B	Rail	Rail	-	√	
C	Rail/Road	Rail	Road	√	√
D	Road/Rail	Road	Rail	√	√
E	Road	Road	-		√

*Choice of preference shall not be required if the Cluster is having only one Road Loading point or one Rail loading point.*

Guideline for submitting choice by bidder:

- a. The bidders registering mode of Choice as Rail only (B above) should have a successful bid quantity in multiple of rake fit quantity(4000 tes). In case the bid quantity is not in multiple of rake fit size and the bidder opt for (B) above, the equivalent Bid Security for the quantity for which rake cannot be formed will stand forfeited.
- b. For the bidder not registering any choice (A above),
  - i. In case bid quantity is 4000 tonnes or more, the default mode will be Rail and order of Rail sources in auction notification shall be considered for allocation. Any quantity not in multiple of Rake load factor shall be liable for forfeiture to the extent of equivalent bid security.
  - ii. In case bid quantity is less than 4000 tonnes, the default mode shall be Road and order of Road sources in auction notification shall be considered for allocation.
- c. The bidders should compulsorily register their order of preference for all the loading points of Rail and Road mode, as the case may be. The same will be ensured by the system.
- d. It is mandatory for the bidder having bid quantity less than 4000 tonnes (rake fit) to register their choice to get preferred order of preference of road loading point, else default Road mode will be considered with order of preference of Road sources of auction notification. Likewise, bidder having bid quantity 4000 tonnes or more and not registering choice in second stage of bidding shall be allocated coal from Rail sources as per order of loading points in auction notification.
- e. Once a bidder submits his choice following the above guideline, Bid Security will not be liable to be forfeited in case coal could not be allotted (wholly/partially) due to non-availability of source-wise offer quantity.

4.2.5.1 On the basis of the bid seniority and the choice of mode and loading points registered by the bidders, the mode of supply of coal along with the source (in case of multiple Rail and Road loading points) will be settled through an algorithm.

4.2.5.2 The logic of the algorithm will be as under:

- Allocation of the quantity loading point wise will be based on seniority of the bid and choice of mode. In case of multiple loading points within a mode the order of preference of loading points provided by provisionally successful bidder of first stage of auction will be considered. However, the total allocated quantity on any individual loading point shall be to the extent of the capacity of evacuation of that loading point.
- For the customers who would not register any choice, for bid quantity 4000 tonnes or more, Rail mode will be considered as the choice of supply. In case of multiple Rail loading points, the sequence of Rail loading points in auction notification will be considered as the order of preference in such case.

For bid quantity less than 4000 tonnes, Road mode will be considered as mode of supply and sequence of Road loading points in auction notification will be considered as the order of preference in such case.

The allocation of mode and loading points will be done in the following manner

- The bid having the highest seniority will be allocated first considering order of mode and preference of loading points.
- Once the allocation for the senior most bid is made, allocation for the second senior most bidder will be taken up and so on.
- Allocation of individual loading points, both Rail and Road, will be made to the extent of evacuation capacity indicated in the offer.

After the above processes, if some quantity of the bidder remains unallocated, equivalent Bid security will be refunded to the concerned bidder by the service provider.

## **5. Post e-Auction process:**

5.1 Each successful Bidder will be intimated through e-mail I SMS by the Service Provider on the same date after the closure of e-Auction. However, it will be the responsibility of the Bidder to personally see **and** download the result displayed on website, on the same date after close of e-Auction.

### **5.2 Determination of coal supplying price:**

- a) From the bid price, % premium over the notified price of the representative grade shall be derived.
- b) In case the grade of the despatch point is different from that of the representative grade, the percentage premium over notified price of the representative grade will be applied on the notified price of the grade of despatch point to arrive at bid price.
- c) In case Steam coal is allotted for auctions held on the representative size of ROM coal, the % premium derived will also be applicable over the price differential between ROM & Steam coal.
- d) The successful bidder will be depositing the balance coal value (over and above the Bid security submitted) and this will include applicable transportation charge, sizing charge, any other charge.
- e) Although the auction will be held on the representative grade and size, the successful bidder shall be bound to accept coal for any grade and size from the allotted source of the cluster.

5.3 The successful Bidders after the e-Auction will be required to deposit coal value with the concerned Coal Company, within a period of ten working days, after the date of closing of second stage of e-Auction. Ten working days would be reckoned as applicable to the respective Subsidiary Coal companies' office where the payment/ deposit is required to be made.

5.4 Equivalent amount of Bid Security of successful Bidder corresponding to successful Bid quantity, shall be blocked and will be transferred to Coal Company by the Service Provider along-with the Bid sheet in respect of successful Bidders.

5.5 In case there is change in declared grade (due to revision in grade declaration notification) of the dispatch point in the interim period from the date of bidding and date of dispatch, the customer may opt out from taking coal in the changed grade by submitting application within 5 days of such notification.

In case of opt out by the bidder, the equivalent bid security to the extent of proportionate bid quantity from the date of grade notification will be refundable.

## **6. Terms of payment:**

6.1 The coal value to be deposited in advance by the successful Bidders shall be computed and deposited after making provision for the Bid Security amount for the successful Bid quantity already transferred by the Service Provider to the subsidiary Company. In other words, the coal value to be deposited and Bid Security amount together, shall be equivalent to the 100 % coal value.

6.2 Bid Security amount shall not be treated as an adjustment towards the coal value but would remain as a 'Security Deposit' for performance of the Bidders towards completion of the said transaction.

6.3 The above Security Deposit (as converted from the Bid Security amount) would be adjusted as coal value, only after completion of lifting of coal covered under coal value paid, excluding Security Deposit. However, in the event of any default in performance by the Bidder, the provision of forfeiture of the 'Security Deposit' [as converted from the Bid Security (inclusive of taxes)] as stipulated, would be applicable.

6.4 In case of road supplies, once the coal value is deposited by way of e-transfer or Demand Draft /Pay Order, drawn in favour of the concerned Coal Company, along-with the debit advice issued by the Bank, certifying that the DD/pay order has been issued, by debiting the account of the concerned Buyer, Sale/Delivery orders shall be issued within seven days by the Coal Company after encashment of Buyer's financial instrument/receipt of payment.

In case of successful Bidders, if the coal value is deposited for less than the allotted Quantity but not below 50% of the allotted quantity or, 50 tonnes whichever is higher, the Coal Company shall accept the payment for the said amount and forfeit the Bid Security for the failed quantity. However, if the Buyer fails to deposit the coal value for at least 50% of the allotted quantity or 50 tonnes whichever is higher than the entire Bid Security of the allotted quantity shall be forfeited.

6.5 However, a successful Bidder whose allotted quantity is only 50 tonnes will be allowed to deposit coal value for minimum 90% i.e. 45 tonnes within the stipulated period of **10** days without which the amount shall not be accepted. In such event they shall be permitted to deposit the balance fractional amount, limited to 10 % of the total coal value of 50 tonne, within the subsequent period of 3(three) working days. In spite of this, if they fail to deposit full coal value of 50 tonne (minimum Bid quantity), Bid Security for entire 50 tonne shall be forfeited.

6.6 In case of rail borne supplies, there shall be two options available. While submitting program, the Bidder at his option can deposit 100 % BG on the prescribed format from the Buyers own account or else may deposit 100% amount through e-transfer or Demand Draft /pay order, drawn in favour of the concerned Coal Company, along with the debit advice, issued by the Bank certifying that the DD/Pay Order has been issued by debiting the account of the concerned Buyer.

6.7 In case of Buyers who have booked their rail programme through BG, a notice for deposition of coal value by way of e-transfer, DD/Pay order, will be displayed on the notice board of the Coal Company, at least three working days in advance before the expected date of offer to the Railways for allotment. The Buyer will be accordingly required to deposit DD/Pay Order along with the debit advice to the tune of BG involved in the programme, within 48 hours of such notice.

In the event of non-deposition of 100% coal value by the Bidder in terms of Clause-6.7 above, the consent given against rake programme will be withdrawn by the Coal Company and Bid Security as per e-Auction scheme will be forfeited.

6.8 The successful buyer shall pay any additional sum which may become payable by the seller under any statutory provision over and above the amount claimed in the invoice. The successful bidder will also be entitled to a refund of the sum of taxes to the seller on account of reduction, if any of the statutory levies claimed in the invoice by the seller, on receipt/adjustment of the said amount by the Seller.

## **7. Procedure of Coal Delivery**

### **By Road:**

7.1 Coal Company shall issue Sale / Delivery Orders to the successful Bidders in terms of Clause 6.4 after realization of payment.

7.2 The validity period to complete lifting of coal by road shall be 45 days from the date of issue of Sale/Delivery Order.

### **By Rail:**

7.3 The seniority of Buyers in case of rail borne supplies shall be guided by the seniority list as provided by the Service Provider based on Buyer's Bids.

7.4 The quantity allotted against each rake is indicative quantity only and delivery shall be made on the basis of actual weighment by the Seller at the loading end.

7.5 The validity period for seeking allotment of rake in case of rail supplies shall be 45 days from the date of issue of consent by the Coal Company. Loading validity of the allotted rakes shall be 90 days from the date of allotment. The rakes which are not loaded within the loading validity will lapse and the Bid Security for the relevant quantity will be refunded. It is clarified that after rakes are sanctioned by Railways and offer is made by Coal Company to Railways, ensuring transport arrangement (rake allotment) as per bid for scheduled loading towards performance of contract is the sole responsibility of bidder. However, after allotment, in case, the allotted rakes are not loaded within the above loading validity, the rake will lapse and the Bid Security for the relevant quantity will be refunded.

7.6 Although loading will be the responsibility of the Coal Company, but to avoid any complaint regarding over-loading, under loading and quality, the Buyer himself or his authorized representative may supervise loading at the loading point. The authorized representative must carry valid authority letter along with photocopy of Identity Card issued by Service Provider.

**7.7 Overloading & Under loading:**

i) Any penal freight for overloading charged by the Railways for any consignment shall be payable by the Purchaser.

ii) Any idle freight for under-loading below the stenciled carrying capacity, as shown on the wagon, for non-coking coal GCV exceeding 5800 Kcal/Kg and for coking coal Steel Grade I, Steel Grade II, Washery Grade I, Washery Grade II, Semi-coking Grade I, Semi-coking Grade II and washed Coal; below the stenciled carrying capacity, as shown on the wagon, plus two (2) tonnes for all other Grades of Coal shall be payable by the Seller.

iii) Idle freight resulting from under loading of wagon, as per point no. (ii) shall be adjusted in the bills. Idle freight shall be reckoned as:

- a) the difference between the freight charges applicable for the stenciled carrying capacity, as shown on the wagon, less the freight payable as per actual recorded weight of coal loaded in the wagon GCV exceeding 5800 Kcal/Kg, Steel Grade 1, Steel Grade II, Washery Grade I, Washery Grade II, Semi-coking Grade I, Semi coking Grade II and washed coal : Or
- b) the difference between the freight charges applicable for the stenciled carrying capacity, as shown on the wagon, plus two (2) tones less the freight payable as per actual recorded weight of coal loaded in the wagon for all other Grades of Coal.

7.8 The weighment at the loading end shall be final and binding for all commercial purposes.

**8. Refund of Bid Security for Unsuccessful Bidders:-**

In case of unsuccessful Bidders, The Bid Security shall be refunded fully/partially by the Service Provider after the auction is over in the following situations on the Bidders request:

- In case the bidder is unsuccessful in the auction

- In case the bidder, successful in first stage of auction, submits his choice & order of preference following the guideline mentioned in 4.2.5 but coal could not be allotted(wholly/partially) due to non-availability of source-wise offer quantity.

However, if no such request is received the Service Provider will retain the Bid Security for participation in e-Auction in future.

9. **Forfeiture of Bid Security:**

The Bid Security submitted by the successful Bidders will be liable for forfeiture in the following cases: -

9.1 During the bidding process, if the bidder opts for Rail mode only either through 'default' or by choice [option A & B of clause 4.2.5] and the provisionally successful bid quantity (in case of 4000 tonnes or more) of first stage auction is not in multiple of rake fit size, the equivalent Bid Security for the quantity for which rake cannot be formed will be forfeited.

9.2 Deleted.

9.3 If after completion of e-Auction, a successful Bidder fails to make payment for the coal value including all other charges within the stipulated time, the proportionate Bid Security equivalent to the failed quantity shall be forfeited subject to the provisions at Clause 6.4 and/or Clause 6.5 of this document, and/or,

9.4 If the successful Bidders do not lift the booked quantity within the stipulated validity period, the proportionate Security Deposit (as converted from the Bid Security amount) or the applicable BG amount for the unlifted quantity would be forfeited. Forfeitable Bid Security amount can be deducted from coal value also instead of BG encashment, as per choice of bidder.

In case of Road mode, forfeiture shall be made only if the balance Unlifted Quantity is equal or more than a Truck Load i.e. 9 or 10 tonnes as applicable.

Such forfeiture, however, would not take place if the Coal Company has failed to offer full or part of the successful Bid quantity within the validity period. In such cases again, no forfeiture would take place if the balance quantity is less than a truck load/rake load.

9.5 If the Buyer cancels the order/Rake after booking, the applicable Bid Security or the applicable BG amount shall be forfeited for the rake/order cancelled.

9.6 After rakes are sanctioned by Railways and offer is made by Coal Company to Railways, ensuring transport arrangement (i.e. rake allotment) as per bid for scheduled loading towards performance of contract is the sole responsibility of bidder and any failure regarding allotment of rake will lead to forfeiture of bid security.

10. **Refund of Coal value:**

The balance coal value of the unlifted quantity after the expiry of the validity period for supply of coal and completion of required commercial formalities shall be refunded subject to forfeiture of Bid Security if required, in terms of the forfeiture clause as above.

**11. General Terms & Conditions:**

11.1 The coal procured under e-Auction is for use within the country and for Export. However, in case of export the onus of complying any law/government rule/regulation/statutory guideline regarding export of coal shall lie only with the buyer/exporter.

11.2 All terms and conditions of Scheme are subject to force majeure conditions as applicable.

11.3 Bidders must always ensure to keep their email address valid. In any case Buyers cannot be absolved from fulfilling the responsibility of compliance of any of the terms and conditions herein including payment terms due to non-receipt of emails from the Service Provider.

11.4 Bidders must be extremely careful to avoid any error in Bidding (whether typographical or otherwise) and they are fully responsible to check and rectify their Bid before submitting their Bid into the live e-Auction floor by clicking the "Bid" button. During the auction if the incremental Bid price is more than 50% of the immediate preceding Bid price, then the system will seek a re-confirmation from the Bidder before the Bid is registered.

11.5 There is no provision for Bidding in decimals. The Bidder shall be solely responsible for all consequences arising out of the Bid submitted by him (including any wrongful Bidding by him) and no complaint /representation will be entertained by the Service Provider/Coal Company in this regard.

11.6 The decision of the Director-In-Charge of Marketing of CIL / Coal Company in matters related to this e-Auction shall be final and binding on the Bidders / Buyers.

11.7 Deleted

11.8 Refusal on account of non-suitability and /or sub-standard quality for the allotted quantity of coal shall not be acceptable. Notwithstanding above the buyers will have the option of third party sampling facility as detailed below:

11.8.1 The Third Party sampling facility shall be extended as an option to the buyers.

11.8.2 Notwithstanding anything to the contrary contained herein, the Buyer shall be required to give his option on whether he proposes to avail third party sampling in accordance with the terms hereof or not during bidding at the e-auction platform. Such information shall be provided by the Service Provider to the respective Coal Co. along with the bid sheet.

11.8.3 Buyers opting for third party sampling can avail such facility as per following conditions:

(i) The facility shall be extended at the Delivery Point only and such third party sampling shall be undertaken throughout the period of lifting in accordance with the procedure for third party sampling for non- power sector as per Schedule I of this scheme.

(ii) If for any reason whatsoever, the third party sampling opted but cannot be conducted in accordance with the procedure for third party sampling for non- power sector as per Schedule I, Sampling and analysis to be carried out by the Seller in presence of the purchaser at the Delivery Point in accordance with the modalities for joint sampling as noted in Schedule I. However, failure

of the purchaser to be present will not invalidate or be a ground for disputing the sampling and analysis carried out by the seller.

(iii) If for any reason whatsoever, the third party sampling/sampling by Seller cannot be conducted in accordance with the procedure for sampling for non - power sector as per Schedule I, the supplies will be treated in the manner as in case of buyers not desirous of third party sampling.

(iv) Buyers opting for third party sampling shall submit a financial coverage towards upgradation of coal arising out of third party sampling for the amount decided by the Coal Co. considering the likelihood of upgradation as per third party sampling based on available trends.

Such financial coverage shall be provided as following depending on whether Bid Security has been submitted in the form of cash or BG.

(v) If Bid Security in the form of cash

(a) Coal value shall be deposited considering the Bid Security amount i.e. coal value to be deposited and Bid Security amount taken together shall be equivalent to the 100% coal value as per clause 6.1 of the scheme.

(b) The differential amount as mentioned in 11.8.3(iv) above shall be furnished by Demand Draft/Pay order/e-transfer, referred to as cash prior to signing of tripartite agreement.

(vi) If Bid Security in the form of BG

(a) In case of submission of Bid Security in the form of BG, the successful bidder shall deposit the applicable coal value without any adjustment of Bid Security as per clause 6.1.

(b) No additional financial coverage shall be required if the amount of BG for Bid Security covers the differential amount as per 11.8.3(iv)

(c) In case of shortfall in financial coverage as per 11.8.3(iv) for availing third party sampling, BG or cash shall be furnished over and above the BG amount for Bid Security.

(d) SFMS confirmation shall be taken by the respective coal company. In case of any default in the BG/non receipt of SFMS confirmation of BG, the concerned buyer shall not be allowed the third party sampling facility for supplies against the relevant e-auction event.

(e) BG furnished for financial coverage towards third party sampling results and also the BG for Bid Security used as financial coverage for third party sampling results shall be for minimum six months initially. It will have to be kept valid throughout the pendency of lifting and to be further extended till discharged/returned by the Coal Co. after final settlement of dues if any.

(vii) The Buyer shall also provide an indemnity bond (format as per schedule II), indemnifying that shortfall in payment if any arising out of result of third party analysis shall be paid within 2 working days of such demand by the coal company.

(viii) Coal Company would be entitled to realize any outstanding amount from any other coal supply /payment etc. of the Bidder from any of the subsidiaries of CIL including NEC or by any other means whichever is available to the coal company.

(ix) For availing the facility of third party sampling signing of tripartite agreement as per format available with Coal Company and other required formalities shall be required to be completed within a period of ten working days, after the date of closing of e-auction. Ten working days would be reckoned as applicable to the respective Subsidiary Coal Company's office.

(x) 50% share of the cost of third party sampling shall be borne by the purchaser in terms of the tripartite agreement. Such payment shall be made by the purchaser directly to the third party agency.

(xi) Where the third party sampling and analysis is undertaken and the same leads to variations in grade vis-a-vis declared grade as on the date of lifting, the adjustment/payment by way of debit/credit note shall be done in the following manner: -

(xii) The initial invoice shall be raised based on declared grade and notified price at the time of lifting plus percentage premium over notified price of representative grade of cluster. This invoice shall be subject to adjustment pursuant to third party sampling analysis.

In case the analysis result is different from the declared grade, the bid price shall be calculated by applying the percentage premium (over notified price of the representative grade of the cluster arrived in the auction) on the notified price of the revised grade of despatch.

The differential amount between initial invoice and the payable amount after third party sampling analysis shall be adjusted/paid through debit/credit note as the case may be within seven days after reconciliation of final results.

In case of issue of Debit note, the differential price with all applicable taxes and levies shall be payable.

In case of issue of credit note, adjustment/refund of differential price along with Goods & Services Tax (GST) shall be made as applicable. Any credit in respect of other taxes and levies, be adjusted/refunded if and when received by the Seller.

11.8.4 Notwithstanding the above, it is clarified that in case of coking coal, if pursuant to the third party sampling by a Third Party Agency, the test results establish that the Grade of Coal supplied falls outside the categorization stipulated in Table of the notification dated 24th January, 2019 issued Ministry of Coal or as modified from time to time, then the supplied coal shall be deemed to be non-coking coal. Such non-coking coal shall be graded on GCV bands and the grade for such non-coking coal shall be established on the GCV band within which it falls.

11.8.5 Bidders who did not opt for third party sampling at e-auction platform would not be entitled to avail the said facility at any time during the period of lifting under the said e-auction event.

11.8.6 Notwithstanding anything to the contrary contained herein, in the event that the Purchaser does not opt for third party sampling, it shall be obligated to pay, throughout the period of lifting, the applicable bid price and the other applicable charges in respect of the allocated Grade of Coal and shall not, in any way be entitled to benefit from or rely on the results of third party sampling availed by any other purchaser of Coal.

11.9 Coal Company / Service Provider reserve the right to cancel the sale of coal under this e-Auction from any source / location in part or whole at any stage at its sole discretion without assigning any reason thereof and no party shall have any right whatsoever to raise any claim in that regard on that count.

11.10 CIL/Coal Company reserves their rights to amend/modify and revise the terms and conditions contained herein in full or in part at any point of time and no party shall have any right whatsoever to raise any claim in that regard on that count.

11.11 While the sale under e-auction is independent both parties shall be entitled to claim and recover from the other any excess or differential tax and statutory levies as provided in clause 6.9 at any time within a period of 3 years from the date on which the sum becomes recoverable. Both parties shall have a lien on any sums of money belonging to the other, which may come to their possession or control to the extent of the sum recoverable from the other.

11.12 In the event of any dispute, Bidder / Buyer is necessarily required to represent in writing to the General Manager/HoD (Marketing & Sales) of the concerned Coal Company, who would deal with the same in a period of one month from such representation. Thereafter, if required the matter be determined by the Director-In-Charge of Marketing of the concerned Coal Company. Any interpretation of any clause of this will be subject to clarification by CIL, which will be deemed as firm and final.

11.13 Revision of bid price (payable price) in case of revision in notified price of bid grade of coal/change in grade shall be as per grade declaration.

11.13.1 The following modalities for charging the price in the event of change in grade/Change in notified price after bidding:

(i) In case of revision in declared grade of supply due to regradation after the auction, the bid price shall be calculated by applying the percentage premium (over notified price of the representative grade of the cluster arrived in the auction) on the notified price of the revised grade of despatch.

(ii) In case there is a change in notified price due to revision in price notification after the auction, the bid price shall be higher of the (a) & (b) below:

(a) bid price calculated by applying the percentage premium (over notified price of the representative grade of the cluster arrived in the auction) on the revised notified price of the supplying grade.

(b) bid price calculated by applying the percentage premium (over notified price of the representative grade of the cluster arrived in the auction) on the pre revised(original) notified price of the supplying grade.

11.13.3 In case of any increase in bid price due to revision of notified price as explained above, the bidder shall deposit within the time notified by Coal Co. The additional amount for the balance quantity pending to be delivered as on the effective date of revision. In case of non-receipt of the additional amount from the Bidder, the quantity to be dispatched shall be reduced to the extent of dues and Bid Security shall be forfeited towards such reduced quantity.

11.13.4 Any differential taxes arising out of revised bid/notified price shall be payable by the Bidder.

11.14 The buyer shall be responsible for compliance of e-way bill for which the required information shall be provided by the respective coal company.

11.15 Compliance of all laws/rules/regulation by any authority shall be responsibility of Buyer and coal company/CIL shall remain fully indemnified in this regard under any circumstances.

1. [The Chairman – cum- Managing Director,  
[Name of Subsidiary Coal Company]  
[Address of Subsidiary coal company]

In consideration of the offer for coal through CIL E-auction Scheme 2022 by .....(Name of the Subsidiary Coal Company) having its Registered Office at \_\_\_\_\_ (regd. address of the subsidiary Company) and Sales Office at \_\_\_\_\_ (address of the sales office of the subsidiary Company) (hereinafter referred to as '**Seller**', which expression shall unless excluded by or repugnant to the subject or context, include its legal representatives, successors and permitted assigns , M/s..... Name of the Company/ Partnership firm/ Proprietor) having its registered office at \_\_\_\_\_(address of the Company/ Partnership firm/ Proprietor) (hereinafter referred to as the "Bidder" initially and once succeeded in the Bid referred to as "Purchaser" which term shall unless excluded or repugnant to the subject or context include its legal representatives, successors and permitted assigns in case of Company being required to furnish Bid Security for the purpose of participating in the Bid and the said Bid Security to be converted to Security Deposit and maintained with the Seller, once successful in the said Bid as per the terms of the CIL E-auction Scheme 2022.

We, \_\_\_\_\_(Name and address of the Bank), having its Head Office at \_\_\_\_\_ (Address of the Head Office of the Bank) (hereinafter called the Guarantor, which expression shall, unless repugnant to the context or meaning thereof, include its successors, administrators, executors and assigns) do hereby irrevocably and unconditionally guarantee and undertake to pay Seller or such other place or places as may be directed by the Seller all amounts payable by the Purchaser to the extent of Rs. \_\_\_\_\_/- (Indian Rupees \_\_\_\_\_) at any time upto \_\_\_\_\_(date that is 06 (Six) months from the date of issue of the Bank Guarantee) subject to the following terms and conditions :-

- 1) The Guarantor shall pay to the Seller on demand and without any demur, reservation, contest, recourse or protest and/ or without any reference to the Bidder/Purchaser. As to whether the occasion or ground has arisen for such demand, the decision of the Seller shall be final.

- 2) The Seller shall have the fullest liberty without reference to the Guarantor and without affecting this guarantee to postpone at any time or from time to time the exercise of all or any of its powers and rights under arrangement made with the Bidder/Purchaser, and the Guarantor shall not be released from this guarantee by any arrangement between the Seller and the Bidder/Purchaser or any alteration thereof made with or without the consent of the Guarantor or by exercise or non-exercise by the Seller of all or any of its powers and rights against the Bidder/Purchaser, or any other forbearance, act of omission on the part of the Seller or indulgence granted by or on behalf of the Seller to the Bidder/Purchaser, which under the law relating to surety ship would but for this provision have the effect of releasing the Bank as Guarantor from their obligations under this guarantee.
- 3) The guarantee herein contained shall not be determined or affected by the winding up or insolvency of the Bidder/Purchaser, but shall in all respects and for all purpose be binding and operative until all monies due to the Seller in respect of all liability or liabilities of the Bidder/Purchaser are fully paid.
- 4) It is also agreed that Seller will be entitled at its option to enforce this guarantee against the Guarantor as principal debtor in the instance notwithstanding any other security or guarantee that the Seller may have in relation to the Bidder/Purchaser's liability.
- 5) The Guarantee will remain valid for a period of Six (6) months from the date hereof and to such further period, as may be required and agreed by the Parties and agreed by the Guarantor before the expiry of the aforesaid validity.
- 6) The Guarantee shall cover all claims or demand of Seller to the extent of the amount guaranteed.
- 7) Notwithstanding anything contained, the liability of the Guarantor under this Agreement is restricted to Rs. \_\_\_\_\_/- (Indian Rupees \_\_\_\_\_), and the same will remain in force upto and including the day of \_\_\_\_\_(date that is Six (6) months from the issue of the Bank Guarantee) and to such further period, as may be required and agreed by the Parties and agreed by the Guarantor before the expiry of the aforesaid validity.
- 8) This guarantee can be enforced by Seller any time for their claims or demand to the total extent of Rs. \_\_\_\_\_/- (Indian Rupees \_\_\_\_\_), as long as it remains in force.
- 9) Unless a demand or claim under this guarantee is received by the Guarantor in writing within the period mentioned in clause 5 and 7 hereof, all rights of the Seller under this instrument shall be forfeited and the Guarantor shall be relived or discharged from all liabilities.
- 10) The guarantee is operative at our ----- (name and address of the branch) Branch, \_\_\_\_\_ (Place).
- 11) This guarantee shall not be discharged due to the change in the constitution of the issuing bank.
- 12) The bank has under its constitution power to give guarantee and Shri \_\_\_\_\_ who has signed on behalf of the bank has authority to do so.

ECL/BCCL/CCL/WCL/NCL/SECL/MCL

GM, NEC

Dear Sir,

**Sub: Applicability of Modulated Price arrived through indexation in  
e-auctions to be held on and from 01.04.2023**

CIL CFDs in its 299<sup>th</sup> meeting held on 25.01.2023 accorded approval for introduction of Modulated Price with WPI indexation, w.e.f. 01.04.2023, for NRS Linkage auction tranche VI and onwards. Subsequently, in terms of CIL CFD decision, CIL vide letter no. CIL/M&S/GM(F)/53 dated 22.03.2023, circulated the Modulated price(to be effective from 01.04.2023) applicable for NRS Linkage auction Tranche VI and onwards.

In furtherance to the above, the following has been decided with the approval of competent authority:

- Modulated Price, applicable for NRS Linkage Auction, may be used as Base Price for arriving at the Floor price (with or without Add-on, as may be decided by the coal company) for Single Window Mode agnostic e-auction to be held on and from 01.04.2023.
- The Modulated Price will not be applicable for supply of coal (beyond 31.03.2023) against the e-auctions held prior to 01.04.2023.

The above is for your information and further needful action.

Yours faithfully,

  
30/3/2023
